

OMNi Same messages

Upon receiving an external message to multiple departments you have access to, only one message is displayed; specifically the message received by your main department.

You can view the same messages in other departments in the hot areas section (right corner).

The screenshot shows an email client interface. At the top, there's a header with the Lgmar logo and 'MASTERING MARITIME EMAIL'. Below it, a message from 'Lgmar Software' is displayed. The message body contains a TELIX MSG and a greeting. A sidebar on the right, titled 'Same Messages', lists departments: DNA, I, and ACC, each with a folder icon and a 'Collections' link. A 'Click outside to close' button is at the bottom of the sidebar. Below the email content, there's a 'Sales department' contact block with a phone number, email, and website. Social media icons for LinkedIn, Instagram, Facebook, and YouTube are also present. A 'Disclaimer Notice' is at the bottom.

In order to view more information, hover over the word same and click. You can view:

- Department the message was received
- If it was added to a folder by a specific department (black folder icon)
- Addressee code

If you would like to view all the same messages, double click on the word “Same”.

Same: ACC I

OMNi will create a search for the same messages.

The screenshot shows the 'Omni Telix' interface. A search bar at the top right contains the text 'same message'. Below it, a table lists search results. The table has columns for 'Status', 'From', 'Subject', 'Received', and 'Size'. The results show three entries, all from 'LGMAR' with the subject 'same message'. The first entry is from 'DNA', the second from 'I', and the third from 'ACC'. Below the table, the details of the selected message are shown, including the sender 'Lgmar Software', the subject 'same message', and the body text. A sidebar on the left contains various filters and search options.
